UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 6
1445 ROSS AVENUE, SUITE 1200
DALLAS, TX 75202-2733

OCT 17 1996

Mr. Rick Buller
Parish Engineer
Jefferson Parish Citizens Council
1221 Elmwood Park Blvd., Suite 1006
Metairie, LA 70123

Dear Mr. Buller:

In response to your verbal request of October 7, 1996, the U.S. Environmental Protection Agency has determined that the Jefferson Parish Sanitary Landfill facility (LA ID #D-051-0090), Avondale, Louisiana, is acceptable for the receipt of hazardous substances, pollutants or contaminants (that are not Resource Conservation and Recovery Act hazardous waste) from Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) response actions. The facility's actual receipt of CERCLA waste must be in accordance with State and Federal requirements.

This determination is made pursuant to the requirements prescribed in 40 CFR 300.440 (58 FR 49200, 49215 - 49218 (September 22, 1993)), and is based upon communication with representatives of the Louisiana Department of Environmental Quality. If conditions change, or if new information reveals violations exist, then the acceptability determination may be affected.

If you have any questions regarding this letter, please contact Ron Shannon of my staff at (214) 665-2282.

Sincerely yours,

Samuel Coleman, P.E.

RE: Compliance History
Jefferson Parish Landfill
D-051-0090
Jefferson Parish

Dear Mr. Coleman:

The Solid Waste Division acknowledges receipt of your letter dated October 11, 1996, requesting the compliance status of the above referenced landfill.

A member of the Solid Waste Division has reviewed the status of the Jefferson Parish Landfill file and has outlined the following for your review:

1. A compliance inspection conducted on September 11, 1991, disclosed that leachate was seeping from the sides of the waste cells. A Compliance Order was issued on January 2, 1992, to Jefferson Parish Landfill to correct the leachate leaks. The landfill initiated an on-going maintenance program which corrected the leachate leaks.
2. On February 14, 1996, the Department of Environmental Quality issued Jefferson Parish a Standard Type I and Type II Permit for the Operation of an industrial and a municipal landfill.
3. A compliance inspection conducted on September 5, 1996, disclosed that the application of the daily earthen cover was insufficient in several areas. The exposed waste was covered with an earthen cover during the event of the inspection. Therefore, a Notice of Corrected Violation has been drafted and is in the process of being issued to the landfill.

**UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 6
1445 ROSS AVENUE, SUITE 1200
DALLAS, TX 75202-2733**

OCT 11 1996

**Mr. H. M. Strong
Assistant Secretary
Louisiana Department of
Environmental Quality
Office of Solid & Hazardous Waste
P.O. Box 82178
Baton Rouge, LA 70884-2178**

Dear Mr. Strong:

The U.S. Environmental Protection Agency (EPA) has made a preliminary determination that the Jefferson Parish Sanitary Landfill Facility (Louisiana ID #D-051-0090), Avondale, Louisiana, is acceptable to receive waste from remedial or removal actions taken pursuant to the Comprehensive Environmental Response, Compensation and Liability Act, provided the facility's actual receipt of such waste is consistent with applicable State and Federal requirements. The purpose of this letter is to consult with you prior to the issuance of this determination.

As provided for in the "Off-site Rule" - 40 CFR 300.440 58 FR 49200, 49215 - 49218 (September 22, 1993), we want to know if the facility is in compliance with State law requirements, including the requirements of any Federal program for which the State is authorized, and if there are releases occurring at the facility or a specific unit of the facility. If you find a violation or a release at the facility or a specific unit of the facility, we will evaluate it for relevance under the "Off-site Rule".

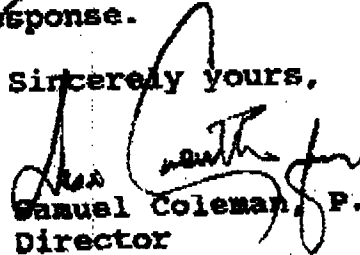

Your agency's response is requested within 14 calendar days of your receipt of this letter to the attention of:

**Ron Shannon (6EN-HS)

Jefferson Parish Landfill
5800 Highway 90 West
Avondale, Louisiana 70094-2472

Dear Mr. Moree:

This division has reviewed your request for confirmation regarding waste handling requirements for the EPA Removal Action at the Westbank Asbestos site. We have received confirmation from the Solid Waste Division of this agency that daily coverage of the asbestos-containing site waste with a tarpaulin is allowable in this project. Please note that all solid waste regulations found in LAC R.S. 33: VII.711.B .2. A and C must be complied with. You are requested to coordinate management of this project, including appropriate notifications, with the Solid Waste Division representative for your site.

If we can be of further assistance in this matter, please contact Ms. Debra Bendily of this office.

Sincerely,

Glenn A. Miller
Administrator

SECRETARY

October 4, 1996

Mr. John Martin, OSC
U. S. EPA, Region 6 (6SF-R2)
1445 Ross Avenue
Dallas, TX 75202

Dear Mr. Martin:

The Inactive and Abandoned Sites Division, with the concurrence of the Solid Waste Division, hereby confirms that the recognized notification date for the Westbank Asbestos Site Removal Action is September 3, 1996. On this date, residents and property owners received letters informing them of the anticipated site activities. Public notices of meetings and media coverage also occurred that week, culminating with presentations and public meetings occurring on September 12, 1996. Therefore, the required 30-day notification period was completed effective October 3, 1996.

All aspects of the LAC R.S. 2041 and 2154 regulations for solid waste management must be complied with during the removal action and waste handling. This includes the notification to the Solid Waste Division by the selected waste facility regarding the receipt of the waste. This document should precede the delivery of site wastes to the landfill.

We appreciate EPA's efforts to help safeguard the human health and environment of our state. Please contact Ms. Debra Bendily of this office for any further matters concerning this issue.

Sincerely,

Glenn A. Miller
Administrator

Re: Request for CERCLA Offsite Approval
Jefferson Parish Sanitary Landfill
Avondale, Louisiana

Dear Mr. Shannon:

Waste Management of Louisiana, Inc., on behalf of Jefferson Parish, respectfully requests approval for the above referenced site as an offsite CERCLA facility to accept non-hazardous CERCLA wastes in accordance with 40 CFR 300.440 (58 FR 49200, 49215-49218, September 22, 1993). The facility is currently operated by Waste Management of Louisiana Inc., on behalf of Jefferson Parish. The facility is identified as follows:

Name: Jefferson Parish Sanitary Landfill
(Formerly Kelven Landfill)

Identification No.: D-051-0090

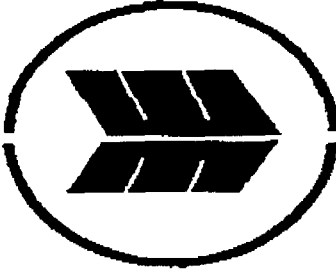

Permit No.: P-0006

Waste Management of Louisiana, Inc., will greatly appreciate your expedited assistance in this matter, as the Parish is currently undertaking a remediation project with EPA and will require the approval to properly dispose of the remediation wastes. If you have any questions or require additional information, please call Amanda Sullivan at 504/667-6138.

Sincerely,

Amanda Sullivan, P.E.

U.S. EPA Region VI
1445 Ross Avenue
Dallas, Texas 75202-2733

RE: Tax Exemption for Voluntary Removal of Hazardous Wastes

Dear Mr. Regan:

You have recently inquired about the hazardous waste tax exemption in Louisiana. The tax exemption is contained in La. R.S. 47:822, which it states in part, that a disposer or generator who voluntarily removes hazardous waste from an inactive or abandoned site shall not be subjected to imposition of this tax. The department considers the EPA-funded Removal Action as a voluntary removal of hazardous waste from an inactive or abandoned site; therefore, you would be exempted from the hazardous waste tax.

All current and future EPA Removal Actions should be considered to fall under the La. R.S. 47:822 statutory exemption. If you have any questions or need further information, please do not hesitate to contact Mr. Lou Buatt - IAS Attorney at 504-765-0487.

Sincerely,

Glenn Miller

**RE: ASBESTOS CONTAINING MATERIAL
TRAINING FOR PUBLIC WORKS DEPARTMENTS**

Dear Mr. Coltrin:

As previously discussed in some of our meetings with the Louisiana Department of Environmental Quality (LDEQ) and the Environmental Protection Agency (EPA), we are requesting that the two (2) agencies get together and provide some practical training for our Public Works' superintendents to enable them to properly recognize and handle asbestos containing materials (ACM) that may be encountered during the excavation of streets and rights-of-way. We believe that this training is especially necessary due to the commencement of the U.S. EPA Westbank Asbestos Site Project. This training would prevent recurrences of incidents such as the one which occurred on September 13, 1996 in Westwego where a Public Works crew was repairing a water line and excavated ACM and left it piled on the right-of-way.

Please notify me as soon as possible of the earliest date that this training would be available so that I can arrange for a location, and coordinate with the affected municipalities.

In addition, please provide, at your earliest convenience, a list of all streets, public properties, rights-of-way, etc., in Jefferson Parish which have been identified as ACM sites. If possible, we would also like to have the names of the schools and day care centers on the ACM list. Please keep us informed of the areas scheduled for clean-up at any given time, i.e., on a weekly or monthly basis.

Thank you, in advance, for your prompt attention of this request.

If you have any questions or need further information, please contact me at (504) 736-6440.

Sincerely,

Marnie Winter
